Instructions to operate charger

Step 14 : The light ring on the charger will turn dark blue. Check your vehicle indication to ensure it is charging.

Step 15 : Lock your car. You can leave the premises. Charging session will stop automatically at the time you indicated. You can stop the session earlier via EV Loader app

After your charging station has stopped via the app first unlock and remove the cable from your car and then remove the cable from the Wallbox

Unlock and remove the cable from your car first

If your charger light indication remains orange or red, do **not** attempt to remove the cable and contact technical support.
